BALLAD GOLD & SILVER LTD.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2008
(Unaudited – Prepared by Management)

Note 1 Interim Reporting

While the information presented in the accompanying interim financial statements is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and changes in cash flows for the interim periods presented. These interim financial statements follow the same accounting policies and methods of their application as the Company's December 31, 2007 audited financial statements. It is suggested that these interim financial statements be read in conjunction with the Company's annual December 31, 2007 financial statements.

These consolidated financial statements include the accounts of the Company and its wholly owned Peruvian incorporated subsidiaries, Ballad Enterprises Del Peru S.R. Ltda. (inactive), Ballad Exploration S.A. (inactive), and TVX Minera Del Peru S.A. (inactive), and the Company's wholly owned Argentinian subsidiary Compania Minera San Antonia which was incorporated by the Company on February 25, 2005 to facilitate exploration in Argentina. All inter-company transactions and balances have been eliminated upon consolidation.

Note 2 Comparative figures

Certain of the comparative figures have been reclassified to conform to the current year's presentation.

Note 3 Significant Accounting Policies

Effective January 1, 2008, the Company adopted new accounting standards issued by the Canadian Institute of Chartered Accountants (the "CICA") as follows:

Transaction Costs

On June 1, 2007, the Emerging Issues Committee of the CICA issued Abstract No. 166, Accounting Policy Choice for Transaction Costs ("EIC-166). This EIC addresses the accounting policy choice of expensing or adding transaction costs related to the acquisition of financial assets and financial liabilities that are classified as other than held-for-trading. Specifically, it requires that the same accounting policy choice be applied to all similar financial instruments classified as other than held-for-trading, but permits a different policy choice for financial instruments that are not similar. The Company has adopted EIC-166 effective December 31, 2007 and requires retroactive application to all transaction costs accounted for in accordance with CICA Handbook Section 3855, Financial Instruments – Recognition and Measurement. The Company has evaluated the impact of EIC-166 and determined that no adjustments are currently required. It is the Company's intention to expense these transaction costs as incurred.

Accounting Changes

In July 2006, the Accounting Standards Board (“AcSB”) issued a replacement of The Canadian Institute of Chartered Accountants’ Handbook (“CICA Handbook”) Section 1506, Accounting Changes. The new standard allows for voluntary changes in accounting policy only when they result in the financial statements providing reliable and more relevant information, requires changes in accounting policy to be applied retrospectively unless doing so is impracticable, requires prior period errors to be corrected retrospectively and calls for enhanced disclosures about the effects of changes in accounting policies, estimates and errors on the financial statements. The impact that the adoption of Section 1506 will have on the Company’s results of operations and financial condition will depend on the nature of future accounting changes.

Financial instruments

Effective January 1, 2007, the Company adopted CICA Handbook Sections 3855, financial instruments; Section 1530, comprehensive income, Section 3856, hedges and Section 3861, Financial instruments - disclosure and presentation.

Section 1530 establishes standards for reporting and presenting comprehensive income, which is defined as the change in equity from transactions and other events from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income that are excluded from net income calculated in accordance with Canadian generally accepted accounting principles. The Company has no comprehensive transactions in 2007 and accordingly comprehensive loss is equal to net loss.

Section 3855 prescribes when a financial instrument is to be recognized on the balance sheet and at what amount. Under Section 3855, financial instruments must be classified into one of five categories: held-for-trading, held-to-maturity, loans and receivables, available-for-sale financial assets, or other financial liabilities. All financial instruments, including derivatives, are measured at the balance sheet date at fair value except for loans and receivables, held-to-maturity investments, and other financial liabilities which are measured at amortized cost. The adoption of these policies has not had a significant impact on the financial statement presentation or disclosures.

Section 3861 establishes standards for presentation of financial instruments and non-financial derivatives and identifies the information that should be disclosed about them. Under the new standards, policies followed for periods prior to the effective date generally are not reversed and, therefore, the comparative figures have not been restated.

These standards have been applied prospectively. The adoption of these standards has not resulted in any adjustments to the carrying amounts of financial assets and financial liabilities at January 1, 2007.

Note 3 Summary of Significant Accounting Policies – (cont'd)

Financial instruments – (continued)

Under adoption of these new standards, the Company designated its cash as held-for-trading, which are measured at fair value. Amounts receivable are classified as receivables, which are measured at amortized cost. Accounts payable and accrued liabilities and due to related parties are classified as other financial liabilities, which are measured at amortized cost.

The Company has determined that it does not have derivatives or embedded derivatives.

Recent Accounting Pronouncements

- i) Assessing Going Concern - The AcSB amended CICA Handbook Section 1400, to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

- ii) Capital Disclosures and financial Instruments – Disclosures and Presentation

On December 1, 2006, the CICA issued three new accounting standards: Handbook Section 1535, Capital Disclosures, Handbook Section 3862, Financial Instruments – Disclosures, and Handbook Section 3863, Financial Instruments – Presentation. These standards are effective for interim and annual financial statements for the Company's reporting period beginning on January 1, 2008.

Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance.

The new Sections 3862 and 3863 replace Handbook Section 3861, Financial Instruments – Disclosure and Presentation, revising and enhancing its disclosure requirements, and carrying forward unchanged its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

- iii) In January 2006, the AcSB adopted a strategic plan for the direction of accounting standards in Canada. Accounting standards for public companies in Canada are expected to converge with the International Financial Reporting Standards (IFRS) as at January 1, 2011.

The Company is currently assessing the impact of these new accounting standards on its financial statements.

Notes to the Interim Consolidated Financial Statements

June 30, 2008

(Unaudited – Prepared by Management) – Page 5

Note 5 Share Capital – (cont'd)

During the year ended December 31, 2006 the Company issued 4,006,250 units of its securities at \$0.08 per unit, for net proceeds of \$320,500, each unit consisted of one common share and one two-year transferable share purchase warrant with each such warrant entitling the holder thereof to purchase one additional common share of the Company at a price of \$0.105 per share. As at March 31, 2008 the warrants had expired unexercised.

On July 13, 2007 the Company completed a second tranche of its private placement, issuing 5,185,735 units of its securities at \$0.08 per unit, raising \$414,859, of which \$260,759 was received during 2006 and recorded as liability to issue shares. Each unit consists of one common share and one two-year transferable share purchase warrant with each such warrant entitling the holder thereof to purchase one additional common share of the Company at a price of \$0.105 per share. The units were restricted from trading until November 14, 2007. Management has estimated the fair value of the warrant to be \$116,679 which has been included in share capital

Share Purchase Warrants

A summary of the status of the Company's warrants as of March 31, 2008 and 2007, and changes during the periods then ended is as follows:

Stock Option Plan

The Company follows the policies of the TSX Venture Exchange ("TSX-V") under which it is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the stock option plan, the exercise price of each option equals the market price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years.

The Company has granted employees and directors common share purchase options. These options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant.

A summary of the status of the Company's stock option plan as of June 30, 2008 and June 30, 2007 and changes during the periods then ended is presented below:

The Company records the fair value of compensation expense on the granting of stock options. The fair value is determined using the Black-Scholes option pricing model. During the six months ended June 30, 2008, no stock options were granted.

Note 6 Related Party Transactions

During the six months ended June 30, 2008 and 2007, the Company incurred the following costs charged by directors of the Company and companies controlled by directors of the Company:

	<u>2008</u>	<u>2007</u>
Management fees	\$ 15,000	\$ 48,000
Interest	43,152	15,115
Legal	9,113	-
Property investigation costs	8,775	-
Shareholder communications	9,695	-
	<u>\$ 85,735</u>	<u>\$ 63,115</u>

At June 30, 2008, the Company owed \$799,480 (2007 - \$541,528) to directors of the Company and companies controlled by directors of the Company. These amounts are unsecured and have no set terms of repayment and include approximately \$402,746 (2007: \$140,824) owing to a company controlled by a director that accrues interest at the rate of 2% per month. Interest paid or accrued during the six months ended June 30, 2008 was \$43,152 (2007:\$15,115). The balance of funds due to directors is non-interest bearing.

The above transactions have been in the normal course of operations and, in management's opinion, undertaken with the same terms and conditions as transactions with unrelated parties.

Note 8 Taxes payable

During the 2004 fiscal year, the Company issued 1,862,222 common shares on a flow-through basis for gross proceeds of \$209,500. The flow-through subscription agreements required the Company to renounce certain tax deductions for Canadian exploration expenditures incurred on the Company's mineral properties to the flow-through participants on or before December 31, 2005. The Company has only spent approximately \$125,000 of the required \$209,500 in qualifying expenditures. As a result of the shortfall in expenditures, the Company was subject to a flow-through penalty tax (Part XXII.6 under the Income Tax Act of Canada) and at June 30, 2008 has accrued \$18,517 in taxes payable. The Company may be contingently liable to the flow-through

share investors in the event of reassessments of their income tax returns by the Canada and Revenue Agency as a result of this shortfall in qualifying expenditures. The Company is currently unable to determine the amount of liability, if any, relating to this flow-through share financings.

Note 9 Subsequent Event

On July 7, 2008 the Company announced that at its annual and special general meeting the shareholders approved special resolutions consolidating the Company's shares on a ratio of one new share for four old shares and also approved a change of its name to Ballad Gold Corp.

The share consolidation and name change are subject to acceptance for filing by the TSX Venture Exchange.

OVERVIEW

Ballad Gold & Silver Ltd. ("Ballad") is a mining exploration company. The Ballad's shares are listed and called for trading on the TSX Venture Exchange under the trading symbol "BGS".

Ballad conducts natural resource exploration and development operations in Canada and South America. In South America, Ballad has conducted exploration in Peru and Argentina.

Mineral Properties

During fiscal 2005 Ballad wrote-off all exploration and acquisition costs on the Rabbit North Property, situated in Canada and the Roberto base metal exploration property in the Peruvian province of Huancaveilea, due to poor exploration results and inactivity on the properties.

On April 19, 2006, Ballad announced its intention to drop its option to earn an interest in the Rabbit North Property and to focus on its South American properties.

Penascudo Gold-Silver Property, Argentina

On June 11, 2003 Ballad and Golden Arrow Corporation (formerly IMA Exploration Inc.) ("Golden Arrow") reached an agreement for Ballad to acquire by option up to an 85% interest in the 9,000 hectare Penascudo Gold-Silver Project from Golden Arrow. The Penascudo Gold-Silver Project is located in the Patagonia region of Southern Argentina, the source area of a string of recent gold and silver discoveries, the most recent being the spectacular Navidad high-grade silver discovery by Golden Arrow.

The agreement between Ballad and Golden Arrow provided the Company with a 60 day period to conduct a review of the property including a due diligence geological study of the Penascudo Property for the Company by an Independent Qualified Person.

The Company's independent Qualified Person conducted an initial review of the discovery area, named the EL REY Gold/Silver zone. Results from that initial review include bonanza grade chip samples assaying up to 1,102.99 grams/tonne gold (32.18 oz/ton) and 704.7 grams/tonne silver (20.56 oz/ton) over a 0.35 meter wide vein structure and grab samples assaying as high as 1,098.23 grams/tonne gold (32.04oz/ton) and 1,144.5 grams/tonne silver (33.39 oz/ton) over the same vein system.

Golden Arrow granted the Company an option to earn an initial 70% interest in the property for incurring US \$1,800,000 of exploration work staged over five years, making a one time US \$300,000 cash payment to exercise the option and issuing 500,000 post consolidation common shares at the approval of the option by the TSX Venture Exchange and a further 500,000 common shares on the exercise of the option. The Company's interest is subject to a 1.5% NSR Royalty. Ballad may increase its interest by funding a feasibility study.

During fiscal 2005 Ballad incorporated its Argentinean subsidiary, Compania Minera San Antonio ("San Antonio") to facilitate exploration in Argentina.

On December 2, 2005 the Company announced that exploration on the Penascudo Property would be delayed until access considerations raised by two of the 12 surface owners were resolved. Over the ensuing fifteen months the Company pursued its rights to access through the Argentinean Government and the Mining Ministry and was ultimately successful.

The Company had worked to gain access for exploration at Penascudo after two surface right holders challenged the Company's rights to explore in November, 2005. After a lengthy process the Company received a declaration from the Director of Mines refusing the surface owners' objections and allowing the Company access to further explore at Penascudo in May, 2006. On June 30, 2006, The provincial government of Chubut in Argentina passed legislation suspending exploration and mining activity in certain areas including the geographic area covering the Cerro Penascudo gold and silver property in Chubut province. As no exploration or development work can be conducted at Cerro Penascudo while the legislation is in effect and there is currently no limitation period for the legislation's effect, as at December 31, 2006, the property was written-down to \$1.

During the year ended December 31, 2007, the Company cancelled the option agreement and is currently negotiating the transfer of the property back to Golden Arrow Resources Corporation. On February 19, 2008, the Company cancelled its option to acquire an interest in the property.

During the year ended December 31, 2007, the Company incurred \$31,077 to maintain the property in good standing which was recorded as impairment of mineral property.

Stock Option Plan

The Company follows the policies of the TSX Venture Exchange ("TSX-V") under which it is authorized to grant options to executive officers and directors, employees and consultants enabling them to acquire up to 10% of the issued and outstanding common shares of the Company. Under the stock option plan, the exercise price of each option equals the market price of the Company's shares as calculated on the date of grant. The options can be granted for a maximum term of 5 years.

The Company has granted employees and directors common share purchase options. These options are granted with an exercise price equal to the market price of the Company's stock on the date of the grant.

A summary of the status of the Company's stock option plan as of June 30, 2008 and June 30, 2007 and changes during the years then ended is presented below:

controlled by a director that accrues interest at the rate of 2% per month. Interest paid or accrued during the six months ended June 30, 2008 was \$43,152 (2007:\$15,115). The balance of funds due to directors is non-interest bearing.

The above transactions have been in the normal course of operations and, in management's opinion, undertaken with the same terms and conditions as transactions with unrelated parties.

OUTSTANDING SHARE DATA

As at August 22 the Company had an authorized share capital of an unlimited number of common shares without a par value. Shares outstanding as at August 22, 2008 totalled 29,977,740 shares, granted options to directors and employees totalling nil shares and had 5,185,735 warrants outstanding at a weighted average exercise price of \$0.105 per share.

MANAGEMENT CHANGES

There were no changes during the current period.

RISKS AND UNCERTAINTIES

The Company competes with other junior mineral exploration companies, some of which have greater financial resources and technical facilities. The business of mineral exploration and extraction involves a high degree of risks and few properties that are explored are ultimately developed into production. In addition to specific risks disclosed throughout this discussion, other risks facing the Company include competition, reliance on third parties, environmental and insurance risks, statutory and regulatory requirements, metal prices and foreign currency fluctuations, share price volatility and title risks.

The Company plans to continue to raise additional capital through the exercise of stock options and warrants, and issuing new share capital through equity financing. The Company's ability to raise additional capital will depend upon the progress of new acquisitions, subsequent development of resource properties and the strength of the resource equity markets, which are uncertain. There can be no assurance that additional capital will be available. The Company is in the process of developing plans to raise capital

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures have been designed to ensure that information required to be disclosed by the Company is accumulated and communicated to the Company's management as appropriate to allow timely decisions regarding required disclosure. The Company's Chief Executive Officer and Chief Financial Officer have concluded, based on their evaluation as of the end of the period covered by the quarterly filings and to provide reasonable assurance that material information related to the Company, is made known to them by others within those entities. It should be noted that while the Company's Chief Executive Officer and Chief Financial Officer believe that the Company's disclosure and controls and procedures provide a reasonable level of assurance that they are effective, they do not expect that the disclosure controls and procedures will prevent all errors and fraud. control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

ACCOUNTING CHANGES

In July 2006, the Accounting Standards Board (“AcSB”) issued a replacement of The Canadian Institute of Chartered Accountants’ Handbook (“CICA Handbook”) Section 1506, Accounting Changes. The new standard allows for voluntary changes in accounting policy only when they result in the financial statements providing reliable and more relevant information, requires changes in accounting policy to be applied retrospectively unless doing so is impracticable, requires prior period errors to be corrected retrospectively and calls for enhanced disclosures about the effects of changes in accounting policies, estimates and errors on the financial statements. The impact that the adoption of Section 1506 will have on the Company’s results of operations and financial condition will depend on the nature of future accounting changes.

Effective January 1, 2007 the Company adopted CICA Handbook Sections 3855, financial instruments; Section 1530, comprehensive income, Section 3856, hedges and Section 3861, Financial instruments - disclosure and presentation.

Section 1530 establishes standards for reporting and presenting comprehensive income, which is defined as the change in equity from transactions and other events from non-owner sources. Other comprehensive income refers to items recognized in comprehensive income that are excluded from net income calculated in accordance with Canadian generally accepted accounting principles. The Company has no comprehensive transactions in 2007 and accordingly comprehensive loss is equal to net loss.

Section 3855 prescribes when a financial instrument is to be recognized on the balance sheet and at what amount. Under Section 3855, financial instruments must be classified into one of five categories: held-for-trading, held-to-maturity, loans and receivables, available-for-sale financial assets, or other financial liabilities. All financial instruments, including derivatives, are measured at the balance sheet date at fair value except for loans and receivables, held-to-maturity investments, and other financial liabilities which are measured at amortized cost. The adoption of these policies has not had a significant impact on the financial statement presentation or disclosures.

Section 3861 establishes standards for presentation of financial instruments and non-financial derivatives and identifies the information that should be disclosed about them. Under the new standards, policies followed for periods prior to the effective date generally are not reversed and, therefore, the comparative figures have not been restated.

These standards have been applied prospectively. The adoption of these standards has not resulted in any adjustments to the carrying amounts of financial assets and financial liabilities at January 1, 2007.

Under adoption of these new standards, the Company designated its cash and cash equivalents as held-for-trading, which are measured at fair value. Amounts receivable are classified as receivables, which are measured at amortized cost. Accounts payable and accrued liabilities, due to related parties and taxes payable are classified as other financial liabilities, which are measured at amortized cost.

The Company has determined that it does not have derivatives or embedded derivatives.

Recent Accounting Pronouncements

- i) Assessing Going Concern - The AcSB amended CICA Handbook Section 1400, to include requirements for management to assess and disclose an entity's ability to continue as a going concern. This section applies to interim and annual financial statements relating to fiscal years beginning on or after January 1, 2008.

- ii) Capital Disclosures and financial Instruments – Disclosures and Presentation

On December 1, 2006, the CICA issued three new accounting standards: Handbook Section 1535, Capital Disclosures, Handbook Section 3862, Financial Instruments – Disclosures, and Handbook Section 3863, Financial Instruments – Presentation. These standards are effective for interim and annual financial statements for the Company's reporting period beginning on January 1, 2008.

Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance.

The new Sections 3862 and 3863 replace Handbook Section 3861, Financial Instruments – Disclosure and Presentation, revising and enhancing its disclosure requirements, and carrying forward unchanged its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

- iii) In January 2006, the CICA Accounting Standards Board ("AcSB") adopted a strategic plan for the direction of accounting standards in Canada. Accounting standards for public companies in Canada are expected to converge with the International Financial Reporting Standards (IFRS) as at January 1, 2011.

The Company is currently assessing the impact of these new accounting standards on its financial statements.

SUBSEQUENT EVENT

On July 7, 2008 the Company announced that at its annual and special general meeting the shareholders approved special resolutions consolidating the Company's shares on a ratio of one new share for four old shares and also approved a change of its name to Ballad Gold Corp.

The share consolidation and name change are subject to acceptance for filing by the TSX Venture Exchange.
